📁 Employment History

Software Engineer at 100Devs, Los Angeles, CA

January 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies for project management

Recent Projects:

Pokemon Pokedex: Built a Pokemon Pokedex that can cycle through over 1,000 Pokemon's and show their weight and height. With each Pokemon evolution!

Other Projects: Tonight's Dinner Recipe, On-demand background-color changer for Partnered Twitch streamer, and many more

Created full-stack web applications and static websites for different clients across small and medium-sized businesses.

Account Manager at Brilar, LLC, Oak Park

December 2020 — Present

- Modified customer service support system to lower complaints, gain customers trust
- Proactively communicated client's issues / ideas with internal stakeholders
- This consultative approach helped me in building strong connections with clients, and ultimately increase their lifetime value
- Reviewed client's services and presented better options to the client along with action items.

Account Operations Manager at Michigan Landscape Professionals, Brighton

April 2018 — December 2022

- Organized and prioritized work to complete assignments in a timely, efficient manner.
- Analyzed and reported performance levels to the company CEO.
- Brought forth a consistent track record of reliability and punctuality.
- Attained a 90% retention track with clients.
