Jose Medina

Software Engineer

👤 Profile

Creative, detail-oriented, software engineer with a deep interest in Cloud. Proven track record of creating and implementing successful front and back-end web applications. Looking to bring my skills to a tech company with global reach.

💼 Employment History

Software Engineer at 100Devs, Los Angeles, CA

January 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies for project management

Recent Projects:

Pokemon Pokedex: Built a Pokemon Pokedex that can cycle through over 1,000 Pokemon's and show their weight and height. Even with each Pokemon evolution!

Other Projects: UpSkies StarGazers Society APOD Web App with NASA API integration, On-demand background-color changer for Partnered Twitch streamer, and many more

Full Stack Web Developer at JM's WebDev Solutions, Waterford

January 2022 — Present

Created full-stack web applications and static websites for different clients across small and medium-size businesses. Also, consulted on SEO and social media strategy, Some clients included:

Actual Client -

Account Manager at Brilar, LLC, Oak Park

December 2020 — Present

- Modified customer service support system to lower complaints, gain customers trust
- Proactively communicated client's issues / ideas with internal stakeholders
- This consultative approach helped me in building strong connections with clients, and ultimately increase their lifetime value
- Reviewed client's services and presented better options to the client along with action items.
